

## Wake-eeg

### Location of the KNF

When coming to Eeg, sign up directly to KNF, which locates in laboratory ward, one floor down from the main entrance, S1, and then follow the black line on the floor and the wall.

### Preparation

Before coming to test your hair must be clean and dry. Do not use any hair products. You can take medicines normally, unless your physician has prescribed otherwise.

### General

The Eeg test records the electrical activity of the brain by using special electrode cap on your head. The test is painless and harmless. It does not put any electricity into your brain or body.

During the test you will lie on a bed eyes closed. At some point you may be showed flashing light and asked to breathe deeply for few minutes. Test takes about one hour.

If you have some questions or you can not arrive at the reserved time, please, contact your sending unit.
